KANYE, B. P., VIA LOBATSI

P.O.B.

September 25, 1936.

Dear Chief Seekedi,

I have been home a couple of weeks since returning from my trip up the line – and my visit to your town; but I do want to drop you just a line this morning.

I did appreciate the little time I spent in your town, as well as the little talk we had together. We also appreciate your donation in behalf of our medical work, and can assure you of our sincere desire to assist the people of Africa in every way we possibly can, and trust in the Lord's own good time we may be permitted to do a similar work among the great Bamangwato people as we are doing in so many other places.

With kindest regards, I am,

Sincerely yours friend,

J. B. Burton.
