Chief Tshekedi Khama
Serowe.

Dear Chief,

I received your letter of the 15th August, I am glad to note that you & family are all keeping well.

I must thank you very much for the statement, that when-ever I require any assistance I must not be afraid to ask you: It made me feel very happy to know that we can call upon you for assistance when required: You can rest assured that it will not be taken advantage of, unless circumstances force us to.

Arthur is going to complete 4 teaching subjects at the university next year, and then intends to teach for two years while studying for the L.L.B. degree: That means that Arthur will be earning a salary while studying, which will be a very big help to us.

KMM 1 TKP 151

Chief my sister want you please to give us some information about the general business prospects in Bechuanaland. If it will be possible to start a small trading store there and approximately how much capital will be required.

Baithomaks is getting on very well with his studies, and I think he feels much happier attending school then sitting at home.

Best regards from my Sister, Brother & self.

I am
Your friend
K Davids
