Dear Chief,

I have been asked to speak on the position of Temperance in the Bechuanaland Protectorate at the Temperance Convention to be held here early in May. I gather that the idea is to obtain more light upon the Prohibition policy of the late Chief Khama.

Can you assist me with any information re:-

(1) The reasons which prompted Chief Khama to lay down Prohibition as a policy
(2) How this was applied with any laws, regulations etc relating thereto.
(3) The present position with regard to these laws, & how they are being followed
(4) The general policy being followed today with the position as it affects the people

Any information you can give will prove helpful as I want to say something authoritative before the Convention. Perhaps some of the older headmen of your people would be able to supply something.

Best wishes & Kindest regards from my wife & myself to Queen Semane & yourself

Yours very sincerely
E. Chas. Warden
