Tiger Kloof
Vryburg.

My Friend/

I thank you for your letter of the 12th instant and I have noted the contents.

I am gradually picking up my normal health again and I hope to leave Cape Town cn the 29th instant by the Rhodesia Express.

The Doctors strongly advise that I should not do any active work until after a good rest, this being the case I think it would be better for me to break my journey at Tiger Kloof and await the opening of the Church while there, if my suggestions is convenient to you I would arrange that my mother should find me at Tiger Kloof. Please let me know if this is convenient by wire.

Give my love to the little boys and kindly remember me to Mrs. Haile and to Rev. and Mrs. Smith.

I remain your friend.
