My Friend,

I recently addressed a communication to the District Commissioner at Serowe, in his capacity as Mining Commissioner, in connection with my wish to obtain permission to prospect for diamonds along the course of the Selepshwe River, and he has informed me in reply that you wish me to write to you direct.

The area in which I am interested is the course of the Selepshwe River, outside the Tuli Block, as far as its junction with the Marapong River, and I shall be grateful to learn whether you would be prepared to grant the necessary permission, and also, in such an event, what further formalities would need to be complied with as regards obtaining prospecting permit or a Grant from the High Commissioner.

With Greetings,

Your Friend,

L. Andersson
