Sir,

As organiser of the Columbia Recording Company I wish to express my humble desire of recording the music of your people at Mafeking in August. I therefore wish to ascertain your permit and influence in my endeavours to do so.

It has always been my desire to take up such an undertaking, and to make it convenient for the people by bringing the recording plant almost at their doors, so that the records should be to the taste and liking of your people.

I shall esteem it a special favour if you will find time to reply at your earliest convenience.

Yours respectfully,

M.S. Radebe
